# Abp. Viganò: Scientists, physicians must join 'anti-globalist alliance' to fight COVID control of humanity

This global betrayal must be stopped: let's respond to corruption with honesty, to lies with truth, to self-interest with generous dedication to public affairs, to the desire for power and money with selfless service and a sense of duty.

Archbishop Carlo Maria Viganò

Tue Dec 7, 2021 - 4:17 pm EST

*Editor's note: The following was an address given by Archbishop Viganò at the Truth for Health conference.*

(LifeSiteNews) – Dear Friends, allow me to address you as you denounce the most controversial and disturbing aspects of the experimental gene serum with great and commendable commitment. Your battle for scientific truth, coupled with increasingly coordinated action by countless scientists and doctors around the world, is opening the eyes of many people who have allowed themselves to be misled by the false promises of health authorities, by the discordant opinions of experts and by media propaganda.

I will not go into the merits of the health issue in itself, as you are much better informed than I am. Allow me to bring to your attention some reflections, observing the entirety of what is happening without focusing on specific details.

It now seems clear to me that the main purpose of this grotesque health charade is the imposition of a control system for individuals, implemented through the so-called *green pass*. We know that the health passport had been designed years ago, but that in order to make it mandatory it was necessary to create a pandemic emergency and force the population – through blackmail or the threat of sanctions – to allow themselves to be injected with an experimental drug for which the producer, the State, and whoever administers it do not assume any responsibility, pouring it instead onto the patient. Just yesterday, the FDA decided to make public the reasons for approving the Pfizer vaccine only in 2076: this gives ample proof of the criminal mind behind the screen of public health.

We see therefore that we have an elite of criminals, gathered together in the World Economic Forum to conceive the *Great Reset*, and in the United Nations to implement the *Agenda2030*, who have decided to decimate the population of the planet through some “scenarios” described in detail.

They destroy national economies, cause poverty and unemployment, create discrimination and violations of fundamental rights with the sole purpose of controlling survivors, tracing their movements, modifying their lives, deciding their thinking, and establishing their health regime. This work includes the collaboration of rulers, public officials, doctors, magistrates, law enforcement agencies, the media and – as if that weren't enough – even religious leaders. Calling it a “conspiracy theory” is an understatement: it is a coup d'état pursued with a clear mind and determination, a crime against humanity.

Its purpose is precisely to control us: to make us slaves and customers of a system that is about to implode, in which those who have made the most profits in the past creating the crisis, are now preparing to carry out the “fourth industrial revolution” – as Klaus Schwab calls it – to continue accumulating power and money.

The imposition of the health passport and the so-called vaccination are part of this project. It matters little that the Constitutions of the States and the most elementary principles of law are violated with impunity in the name of an emergency that was artfully provoked; it matters little that eminent personalities of the world of medicine denounce the serious side effects of the gene serum and the criminal management of the pandemic; it matters little that the macroscopic conflicts of interest existing between pharmaceutical companies, medical staff, health officials and mainstream information are well known: their narrative does not contemplate refutations, does not accept criticism, does not tolerate the evidence of the facts.

But if an elite has managed to corrupt the rulers and carry out a real coup against the citizens, we cannot respond locally: if the aggression is global, the action of opposition and resistance must likewise be global. I therefore also renew my invitation to you, who as scientists understand very clearly the danger of the experimental drug, asking you to join an Anti-globalist Alliance, in order to be able to counter this undeclared – but no less ruthless and violent – world war in a unitary and coordinated way.

Our enemy is not the virus, but the insanity of those who betray their duties to the detriment of the community, of those who believe they can impose the Chinese totalitarian model and social credit in our nations, in the name of a communist collectivism that takes away identity and freedom to each of us.

This global betrayal must be stopped: let's respond to corruption with honesty, to lies with truth, to self-interest with generous dedication to public affairs, to the desire for power and money with selfless service and a sense of duty.

We reject not only the pandemic delirium, but the entire castle of horrors of the globalist ideology: the culture of death of abortion and euthanasia, gender theory, the indoctrination of our children, the “cancel culture,” uncontrolled immigration, the demolition of the natural family, the reduction of the protection and wages of workers, the persecution of small businesses. Let's go back to being proud defenders of traditional values: God, Nation and Family. Let's return to praying to the Lord, recognizing him as King not only of individuals, but of all nations and societies. Only understanding the war in progress, identifying the opponents and their criminal aims will allow us to resist and win.

If we limit ourselves to looking only at the efficacy of the gene serum, or the reliability of the test swabs, or the response that a single country has given to the spread of the infection, we will never get out.

Remember: if the attack is global, the counteroffensive must also be global.

And may God assist and protect us.

+ Carlo Maria Viganò, Archbishop
